

The "1324"

This event will count the 1 Best NET Score of the First Player and Third Player listed along with the 1 Best NET Score of the Second Player and Fourth Player listed.

Your team score will be the NET Best Ball between Players 1 & 3 along with the NET Best Ball between Players 2 & 4.

You may want to use some strategy while writing down your players. It may be best to list the players in order of handicap or have your lowest handicapped player listed first and your highest handicapped player list third so that they are partners.
